पत्रांक

दिनांक 11.3.2017

To,

The Chief Election Commissioner,
New Delhi.

Sir,

1. It is to bring to your notice that during the entire process of U.P. and Uttarakhand Elections several persons had been informing the party that grave manipulation's have been done in the voting machines by experts of technology and software field hired by B.J.P. in such a manner that particular number of votes as desired by B.J.P. will get automatically transferred to B.J.P. candidates in every constituency even though they have actually been polled in favour of B.S.P. or other political parties..
2. This issue has consistently been raised before the Election Commission ever since the Lok Sabha elections of 2014 by almost all parties except B.J.P. Similar grievance has been raised against B.J.P. in the recent Maharashtra Municipal Elections also.
3. During the press conference which was held at 13, Mall Avenue, Lucknow of Party President, Bahujan Samaj Party, on 6th March, 2016 a press media Journalist had in front of all Media Persons raised this doubt before Miss Mayawati.
4. From the counting trends which are being shown in the Media it is absolutely clear that a manipulation in the voting machines has been got done by B.J.P. otherwise it is impossible for B.J.P. to get so many votes in almost all seats of U.P. and Uttarakhand when in fact at the ground level during elections and polling they were no where even near to winning.

5. The manipulation is absolutely clear from the fact that we have received informations from counting agents that in several polling booths votes where more than 40% to 50% muslims votes were there still almost all votes are being shown to have been done in favour of B.J.P.

You are therefore requested to :-

1. Immediately look into this serious matter and stop all elections officers from declaring the Final results of Uttar Pradesh and Uttarakhand Assembly elections 2017.
2. To seal all the voting machines and get them examined technically through experts from outside the country and not from India as the B.J.P. would easily manage the so called experts of India.
3. To direct holding of fresh assembly elections of U.P. and Uttarakhand through open ballot papers and not through EVM machines and the results of the same would show the extent of manipulations got done by B.J.P. in EVM machines.
4. To stop using EVM machines in future in all the Assembly, Lok sabha and other elections of India otherwise their will be no purpose of holding general elections if they have to be managed through manipulation in EVM machines.

Thanking you,

Sincerely your's

11/3/2017

(Satish Chandra Misra)
National General Secretary,
